

## THROUGH PENETRATIONS

**APPLICATIONS:** For plumbing, mechanical, electrical, and datacom.

### SPECSEAL TRIPLE S INTUMESCENT SEALANT

Multi-Purpose Sealant

Features STI's patented two-stage intumescent technology offering quick, aggressive expansion. A multi-viscosity product, SpecSeal SSS offers exceptional shear-thinning capability that makes caulking quicker and easier. The result is less labor and more efficient installations.

- Unmatched versatility—Over 250 tested UL Classified systems
- Water-based for easy installation, cleanup, and disposal
- Patented two-stage intumescence features extremely fast and aggressive expansion that also provides an excellent smoke seal
- Acoustically tested
- Remains flexible: allows normal pipe movement
- Sandable and paintable when dry
- Water-resistant: will not re-emulsify when dry
- Safe for contact with plastics
- Red color for easy identification and inspection
- Excellent smoke seal
- UL Classified and FM Approved
- Products SSS100, SSS102, SSS105, SSS120, SSS129

#### PACKAGING

11 oz. Cartridges	5 gal. Pails
29 oz. Cartridges	20 oz. Sausages

### SPECSEAL SERIES LCI INTUMESCENT SEALANT

Series SSS intumescent is required in many applications, SpecSeal Series LCI is a standard

grade intumescent specifically engineered and tested to economically address many common firestop applications that represent a significant part of the overall market.

- Economical: intumescent performance at non-intumescent prices
- Highly intumescent: expands up to 10 times
- Safe for contact with plastics
- Water-based for easy installation and cleanup
- Water-resistant: will not re-emulsify when dry
- Acoustically tested: reduces sound transmission
- Low VOCs: safe. No solvents. Non-halogenated
- Pale red for easy identification
- UL Classified and FM Approved
- Products LCI300, LCI305, LCI320
