

TOLUOL

Solvent used for oil based paints, coatings, and synthetic enamels. Toluol is similar to Xylol except it evaporates 2-3 times faster. It is commonly used in cold weather applications and when fast drying action is desired.

PACKAGING
Available in 1 & 5 gallon pails

MURIATIC ACID

(20° Baume, 31%)
Muriatic acid is commonly used for cleaning masonry and for etching concrete prior to resurfacing or painting.

PACKAGING
Available in 1 gallon pails and 5 gallon Carboys

DRY TURBO BLADES

SD-Series - Super Dry Turbo Rim Blades

The SD Series Gold blade was engineered for extreme performance, durability and cutting speed. The new longer and embedded segments protect the core and keep the operator from having to stop production for cool down intervals. The SD Series Green is the Original blade professionals have come to depend on for quality and performance. The SD Blue has been developed for those who need performance and value.

Pearl is particularly proud to introduce two new SD Series blades, SD Silver and SD Bronze, these blades bring all the best features of the SD Series blades along with unparalleled value.

BENEFITS	SD GOLD	SD GREEN	SD BLUE	SD SILVER	SD BRONZE
