

A-3 Standard Snap Tie

Dayton/Richmond A-3 Standard Snap Ties are manufactured with either hot or cold forged integral heads. A-3 snap ties have a nominal 1" breakback with 1/4" and 1/2" breakbacks available on special order.

A-2 Plastic Cone Selection Chart		
Size	Maximum Diameter	Length
1" x 1"	1"	1"
3/4" x 1 1/2"	3/4"	1 1/2"
1 1/4" x 1 1/2"	1 1/4"	1 1/2"

Dayton/Richmond A-2 Plastic Cones can be added to A-3 Snap Ties and A-46 and A-48 Loop Ties. The cones act as internal spreaders, reduce grout leakage and aid in the breakback operation. (1" x 1" are standard)

PACKAGING & AVAILABILITY

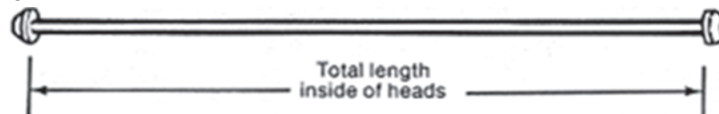

Standard Snap Ties are available 100 per carton in long end (8 1/4" ends) and short end (4 3/4" ends) with or without cones. Standard inventoried sizes include, but are not limited to the following:

15" LE washer/cone
24" LE washer/cone

A-9 Tip-To-Tip Tie, Standard and Heavy

Dayton/Richmond A-9 Tip-To-Tip Tie is a plain rod with headed ends. The A-9 tie is usually withdrawn from the concrete or cut-off after stripping the formwork.

To Order:

Specify: (1) quantity, (2) name, (3) total length of inside heads (allow 1" total length increase for take up of wedges).

SAFE WORKING LOADS: 2.250 lbs. for Standard Ties / 3.350 for Heavy Ties
